FEATURES

It's no accident that Kingsley is drawn to dark, complicated, downright villainous characters. —PAGE 62

The best-designed, finest boutique and most luxurious hotels on the East Coast.

The Best Hotels of the Northeast 2011

Arrive's annual roundup of our favorite hotels and resorts in the region—from boutique and luxe properties to new and classic options for travelers

By Jessica Merrill

The Treehouse Spa at Hidden Pond.

Luxury

MAINE

Hidden Pond • Kennebunkport

One of southern Maine's newer resorts is also the most lavish. On 60 wooded acres in the seaside town of Kennebunkport, Hidden Pond is all about rustic luxe. The 36 rambling cottages nestled across the property have stone fireplaces, verandas and hammocks. There is plenty to do besides whiling away the afternoon; the resort has a pool, treehouses that function as spa treatment rooms and an organic garden, and it hosts yoga and art classes. *Doubles from \$399; hiddenpondmaine.com*

RHODE ISLAND

Forty 1° North • Newport

You don't have to sail a yacht up to the dock of the Forty 1° North marina to take advantage of the resort's superb waterfront setting. The hotel and marina, which opened in 2010, is a modern addition to the historic harbor town of Newport. Some of the 28 rooms have balconies and bay views; all have gas fireplaces and come with iPads loaded with the daily newspapers. The hotel is just steps from the restaurants and shops on Thames Street. *Doubles from \$395; 41north.com*

New

VIRGINIA

Keswick Hall • Keswick

This sprawling Tuscan-style villa has the glamour and romance to match its Virginia hunt country surroundings. The 48-room hotel is on a 600-acre country estate but is just a short drive to downtown Charlottesville and historic sites such as Monticello. There's plenty to do on-site: play a round of golf on the 18-hole Arnold Palmer course, lounge by the infinity edge pool on the piazza, sip a glass of sherry by the library fire or play a late-night game of snooker in the snooker room. *Doubles from \$395; keswick.com*
